

New Product Announcement

Relaunched Pipercross panel filter range

Our extensive performance replacement panel filter application list just got even bigger!

The range now covers over **3,000** cars, and they are all Made in U.K.

Pipercross performance air filters are a direct replacement and do not affect vehicle warranty.

By using a combination of multiple layers of foam in each filter, Pipercross panels can flow air up to **three times longer** than cotton-gauze filters and paper before cleaning is required.

Each Pipercross filter has a lifetime warranty.
